

Elementary Principles of Agriculture (Paperback)

By Alexander McGowen Ferguson

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1908 edition. Excerpt: .trees should be put into good-sized holes and loose, moist soil worked in around the roots, and tramped just sufficiently to hold the young tree in position. In transporting nursery stock, the roots should never be allowed to become dry. When trees are received from the nursery they should be set in trenches and dirt thrown over the roots. If the soil is not moist it will be well to apply water freely. It will usually be much better if young orchard trees are set in the place they are to grow in the fall months. They will thus have plenty of time to form new roots. Fall-planted trees usually put out their leaves earlier in the spring than trees planted in late winter. Young orchard trees should be especially well cared for during the first season after transplanting. (See U 61.) CHAPTER XX...
