

Developmental Speech-language Training Through Music for Children with Autism Spectrum Disorders: Theory and Clinical Application

By Hayoung A. Lim, Karen Miller, Karen Epps Miller

Jessica Kingsley Publishers. Paperback. Book Condition: new. BRAND NEW, Developmental Speech-language Training Through Music for Children with Autism Spectrum Disorders: Theory and Clinical Application, Hayoung A. Lim, Karen Miller, Karen Epps Miller, Speech and language impairments are one of the most challenging features of Autism Spectrum Disorders (ASD). Children with ASD are also known to be particularly responsive to music. This book makes a valuable connection between the two traits to showcase music as an effective way of enhancing the speech and language skills of children with ASD. This is a comprehensive guide to Dr. Hayoung Lim's highly effective approach of using music in speech-language training for children ASD. Part I provides a sound theoretical foundation and employs the most up-to-date research, including the author's own extensive study, to validate the use of music in speech and language training for children with ASD. Part II analyzes the clinical implications of "Developmental Speech-Language Training through Music" (DSLM) protocols and explains in detail specific interventions that can be used with the approach. The practical application of DSLM to Applied Behavior Analysis (ABA) Verbal Behavior (VB) approaches is also explored. This is essential reading for music therapists, speech and language pathologists and...

Reviews

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).
