Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

William was nearly four hundred years old and the last of his kind, or so he thought. The Gifted, as they were once called, helped humans survive the dark years, but fear of their powers drove man to betray and murder them. William had escaped the genocide and traveled alone since childhood guided only by an inner desire to uncover the secrets of nature's magic and share them with those he deemed worthy. But he had not tutored a pupil for many years. His body aged again, his powers were fading, and he wandered aimlessly waiting to die. Just as he accepted the inevitability of his death, a vision warning of unspeakable evil brought renewed purpose to William's empty life and foretold a champion with who rests the fate of all mankind! This item ships from La Vergne, TN. Paperback.
