Springer. Paperback. Book Condition: New. Paperback. 390 pages. Dimensions: 9.3in. x 6.1in. x 0.8in. The 6th International Conference on Cooperative Design, Visualization and Engineering CDVE 2009 was held in central Europe - Luxembourg. Participants from five continents came together to celebrate this annual event.

The papers published in the conference in this volume reflect the new progress in the following aspect. Research in developing cooperative applications is currently focusing on two directions. One is the cooperation in the software development process and the other is the variety of the targeted cooperative software products. Many papers address how to facilitate cooperation in the software engineering process particularly global software engineering. The importance of sharing information in cooperation is emphasized by the authors. For example, papers that addressed the development of sharing mental models, tools for easily shared projects, sharing links for cross-media information spaces, sharing resources and transfer of knowledge among team members etc. have attracted special attention. Many papers presented in this volume are the research results of tackling problems in developing a great variety of cooperative software products. The targeted systems are cooperative support for music creation, cooperative process management systems, cooperative visualization systems for geographic information, cooperative cultural information sharing platforms, cooperative reasoning systems, cooperative sensor networks for environment...

Reviews

It is not difficult to go through easier to understand. It normally fails to price too much. I am very happy to inform you that this is actually the greatest ebook I actually have read through within my personal lifestyle and can be the best publication for ever.
